

## PROGRAM

### KASS & KOREAN NIGHT

Saturday, Sep 14, 6:00 PM

Embassy Suites by the Hilton, 6th Floor Fountain Bleu Ballroom

6:00pm Welcome addresses and Congratulatory remarks by KORL, KAOS, and AAO Leadership

6:15pm Invited Speaker: Carl Snyderman, MD. (University of Pittsburgh) - "Endoscopic Skull Base Surgery"

6:45pm Invited Speaker: Dennis Poe, MD. (Harvard Medical School and Children's Hospital) - "Endoscopic Eustachian Balloon Tuboplasty"

7:15pm Travel Award Presentations

7:20pm Cocktails

7:45pm Dinner

### The Art of the Asian Eyelid: Perspectives from Korean & Korean American Surgeons

Sunday, Sep 15, 1:15 PM

Ernest N. Morial Convention Center, Room 295

Moderator: Jung-Soo Kim, MD (Kyungbuk National University Hospital)

Panelists: Jeffrey M. Ahn, MD (Icahn School of Medicine at Mount Sinai, USA) / Ji-Yun Choi, MD (Chosun University Hospital) / In Sang Kim, MD (La Bom Plastic Surgery Clinic)

### Cutting Edge Endoscopic Surgery in Otolaryngology

Monday, Sep 16, 7:30 AM

Ernest N. Morial Convention Center, Room 295

Moderator: Chung Hwan Baek, MD, PhD (Sungkyunkwan University School of Medicine, Samsung Medical Center)

Panelists: Kyung Tae, MD, PhD (Hanyang University Hospital), Yoon-Woo Koh, MD, PhD (Yonsei University College of Medicine) / Daniel J. Lee, MD (Mass Eye and Ear Infirmary) / In Seok Moon, MD, PhD (Yonsei University College of Medicine)

## LOCATION

# 10 Year Anniversary of "Korean American Satellite Symposium"

### KASS & Korean Night

Embassy Suites by the Hilton, 6th Floor Fountain Bleu Ballroom  
Saturday, Sep 14, 6:00 PM

### International Symposium

Ernest N. Morial Convention Center  
Sunday, Sep 15, 1:15 PM / Monday, Sep 16, 7:30 AM

Sponsored by the Korean Society of Otorhinolaryngology-Head & Neck Surgery, Korean-American Otolaryngology Society, and American Academy of Otolaryngology-Head & Neck Surgery

# INVITATION

## 10 Year Anniversary of "Korean American Satellite Symposium"

Dear Colleagues,

I am very proud of having our annual Korean American Satellite Symposium (KASS) and International Symposium at New Orleans. Since 2009, we have had very fruitful and inspiring symposiums for Korean American Otolaryngology Society (KAOS) and Korean Society of Otorhinolaryngology-Head and Neck Surgery (KORL-HNS) annually. This year, it is worth a celebration

to have our 10 year and 11th KASS. I would like to express my best respect to the former leadership of both societies for founding and developing the KASS during past 10 years.

We will have our annual dinner meeting (KASS) in the evening on September 14th at wonderful place, downtown New Orleans. I am pretty much honored to invite two distinguished speakers, Dr. Carl Snyderman and Dr. Dennis Poe from AAO-HNS. We will also have a meaningful ceremony to celebrate 10th year for KASS.

We also have International Symposium in AAO-HNSF program on September 15th and 16th with two topics about 'The Art of the Asian Eyelid' and 'Cutting Edge Endoscopic Surgery in Otolaryngology'. I expect this will be a good chance to share experience and knowledge about the difference and consensus about practical surgical techniques for aesthetic eyelid surgery and recently developed-techniques for endoscopic surgery between two countries.

In 2020, the KORL-HNS hosted annual International Congress of ORL-HNS on April 16th – 19th. I would like to invite all the members of KAOS and AAO-HNSF to share contemporary perspectives in our field. I am sure that we will have meaningful time to promote our knowledge and friendly relations between two countries.

On behalf of the KORL-HNS, I would like to welcome members of KAOS, AAO-HNS, and participants from Korea to the 10 year celebration and 11th KASS meeting in New Orleans, Louisiana.

Finally, I would like to thank to the leaderships of KAOS, and also to the Scientific Committee of KORL-HNS for their dedication in organizing this meeting.

I hope the 11th KASS meeting a big success, and look forward to seeing you soon.

Chae-Seo Rhee, MD  
Chairman, Board of Directors  
Korean Society of Otorhinolaryngology-Head and Neck Surgery

Dear Friends and Colleagues

It is an honor for me to invite you to our 11<sup>th</sup> annual Korean American Satellite Symposium (KASS) being held at New Orleans. This meeting is organized jointly by the Korean-American Otolaryngology Society (KAOS) and Korean Society of Otorhinolaryngology-Head and Neck Surgery (KORL-HNS) and supported by the American Academy of Otolaryngology Head and Neck Surgery (AAO-HNS).

The objectives of the KASS are to present recent advances in otology, and endoscopic endonasal approaches by the leading authorities in an informal setting and to promote collaboration between the societies. Our speakers, Drs. Carl Snyderman and Dennis Poe are experts in their respective fields. I hope that this symposium will provide stimulating discussion and provide clinically relevant tips that will improve patient care. Following the scientific meeting, there will be a dinner and social event to foster social and professional relationships among the society members and guests.

Finally, I would like to thank the many individuals who have dedicated many hours in preparation for the meeting. I would like to thank Professor Chae-SeoRhee, Chairman of KORL-HNS for his support, Dr. Kenneth Lee for preparing for the scientific session, and Dr. Do Yeon Cho for the arranging the logistics of the meeting.

I look forward to seeing you in New Orleans and hope that you will have a great time with us!

Albert Park, MD  
President  
Korean-American Otolaryngology Society

On behalf of the American Academy of Otolaryngology–Head and Neck Surgery and its Foundation, I congratulate the Korean American Satellite Symposium, its leadership, and members on the 10<sup>th</sup> anniversary of the symposium. It is both a great honor and privilege to welcome you and your members to the AAO-HNSF 2019 Annual Meeting & OTO Experience in New Orleans, Louisiana.

We congratulate Dr. Chae-Seo Rhee, Chairman of the Korean Society of Otorhinolaryngology and Dr. Albert Park, President of the Korean American Otolaryngology Society, and wish you continued success in the years to come. What a legacy you have established!

The Korean American Satellite Symposium (KASS) became an official satellite meeting of the AAO-HNSF in San Diego, California, on October 3, 2009. Since its inception, KASS has served as a model for collaboration across borders, interconnectedness, trust, and the ability to work together to advance the specialty and patient care on a global scale.

The specialty is strongest when we stand together. "We Are One" is the theme which represents the Academy and its Foundation's commitment to inclusivity at all levels, and to be the global leader in optimizing quality ear, nose, and throat patient care. We Are One also aptly describes the meaningful impacts and achievements of KASS and its contribution to advancing the specialty.

Our leadership truly values the strong partnership we've built. AAO-HNSF Past President and Past Coordinator for International Affairs Gregory W. Randolph, MD extends the following message which represents our gratitude. "There is no better example of our Academy motto 'We Are One' than the Korean American Satellite Symposium and KASS. The Korean and US Korean societies act so synergistically to provide a rich academically textured program year after year. Also, the way these societies mentor your younger members is inspiring. The AAO-HNSF is honored to have the Korean American Satellite Symposium as a proud part of our Annual Meeting as we move together into our future together."

We look forward to our societies uniting to improve the care and quality outcomes for our patients worldwide, through continued collaboration and outreach, as our global message continues to resonate around the world.

We thank you for your dedication and unique commitment to the advancement of the specialty through worldwide collaboration, education, and friendship.

Congratulations!

Albert L. Merati, MD  
President  
American Academy of Otolaryngology-Head & Neck Surgery Foundation
